

CS-335-02-Project 1 Cella Ant 12-Standup Status Report

Standup Status: CS-335-02 Project 1-Cella Ant 12 File: 335-02-p1-SAP-Standup-190928.pdf

Team: SAP = Eric, Anthony, Pierce, Saytu

335-02: the "02" is the class section

Pierce:

1. Found JavaScript syntax
2. Checked for any obstacles found in the project
3. Completed the README.txt file

Eric:

1. Finished coding grid
2. Made the grid appear on the screen

Anthony:

1. Finished writing the ant class
2. Did the simulation on the grid

Saytu:

1. Completed the final standup status for the project
 2. Checked for syntax errors
 3. Completed the README.txt file
-

Progress List (& implied WBS)

Ready:

#2 Setup Initial Layout - Anthony

#2.2 Setup Project Info - Saytu

#3 Run Cella- Pierce

#3.1 Generate next row - Eric

Working:

#4 Draw XY cell color (Anthony Eric, 9/11)

Done & Verified:

#1 Setup Infrastructure Demo (Saytu, 9/14) #2.1 Setup Cella Grid (Pierce, 9/16)

#11 Get XY cell next state (Eric, 9/20)

#12 Get color from state (Anthony, 9/21)

Issues: Our biggest issue was our automation, we came close to solving it. The end result of our program created a symmetrical shape.

OBE: None

#6 Get XY cell next color ==> Anthony

#2 Setup Cell Board ==> Eric
